**BIO-BACK PILOT-IMPLEMENTATION PROGRAM AGREEMENT**

This agreement, effective this \_\_\_\_\_ day of \_\_\_\_\_, 2011 outlines the terms of a limited time (60 to 90 day) Pilot-Implementation program. This program offers participants an opportunity to evaluate the Bio-Back, both clinically and financially. This is a great opportunity to personally evaluate the Bio-Back's fit with Chiropractic care before your association considers participation in the Bio-Back Affinity Program and starts recommending the Bio-Back to its members. Also, while the Bio-Back is covered by most payors under HCPCS Code L0627, this program will help identify any state-specific insurance plan coverage requirements regarding the provision of a Lumbar Orthosis by a Doctor of Chiropractic.

In consideration of the Practice's participation in this program, Medolutions' offers the Participating Practice discounted pricing for a one year period from August 2011 to July 2012:

- BB200 Standard Size Bio-Back (Regular price \$88.00 each) - \$58.00 each
- BB300 Large Size Bio-Back (Regular price \$94.00 each) - \$64.00 each.

The terms of this program are outlined below:

1. Medolutions will provide Bio-Back training to the Participating Practice. Training will include: proper fitting, provision of an insurance verification form and answering any clinical or billing questions.
2. Medolutions will provide the Participating Practice with a supply of up to five (5) Bio-Backs on a consignment basis. Initially, we will provide \_\_\_\_\_ Standard Size Bio-Backs (BB200-EA and \_\_\_\_\_ Large Size Bio-Backs (BB300-EA).
3. The Participating Practice will identify patients, with different payor source, for whom the Bio-Back would be appropriate. Office staff will utilize the Bio-Back Insurance verification form before providing the Bio-Back to a patient.
4. Medolutions and the Participating Practice will sign a Business Associate's Agreement to ensure HIPPA regulation compliance. The Participating Practice will share any denial information with Medolutions' and allow us to assist practice staff in trying to get the claim paid.
5. The Participating Practice will track responses from its insurance verification efforts and at the end of the program will provide a summary of findings along with copies of all Bio-Back related EOB's (with confidential patient information redacted). The Doctor will also provide a summary of his/her clinical experience and patient feedback regarding the Bio-Back.
6. For the trial period only, Medolutions will provide the Bio-Backs on a consignment basis for sixty days. Thereafter, Medolutions will invoice the Participating Practice for the Bio-Backs provided with the invoice amount due and payable within 30 days.
