Tell congress to stop Medicare cuts for DCs

Take five minutes today to send a letter to the U.S. Congress regarding payment reductions that will further exacerbate the financial instability of health care providers, especially doctors of chiropractic.

On Oct. 30 of this year, Representatives Ami Bera, MD (D-CA), and Larry Bucshon, MD (R-IN), introduced H.R. 8702, the Holding Providers Harmless from Medicare Cuts During COVID-19 Act of 2020. This comprehensive bill has wide support in the U.S. Congress and among Medicare providers and patients. H.R. 8702, through what is known as a "hold harmless" approach, would ensure that payments to doctors of chiropractic remain at current 2020 levels through 2022.

The American Chiropractic Association says, "This critical legislation recognizes the importance of allowing significant scheduled pay increases to primary care and others who primarily provide E/M services to take effect while also avoiding the devastating corresponding cuts for physician and non-physician providers that will occur because of Medicare's budget neutrality requirements. Given the ongoing COVID-19 pandemic, it is more important than ever to halt the implementation of any payment reductions."

Send a letter now to your member of congress and urge

THE WINTER BUYERS GUIDE IS A KEEPSAKE THROUGH EARLY 2021 UNTIL WE UPDATE WITH THE SUMMER BUYERS GUIDE

them to co-sponsor this critical legislation for doctors of chiropractic by going to acatoday.com.

Thank you, loyal readers

We received an email this week that was signed "loyal reader," which made us thankful, through all the difficulties that 2020 has brought, for the steadfast support of our readership.

Chiropractic Economics magazine and ChiroEco.com are both the No. 1-voted, most-trusted and most-used resource for practice building, product information and purchasing decisions by doctors of chiropractic.

We have also developed the most complete, integrated marketing programs to build brand equity and generate quality leads for the chiropractic and industry companies we work with. We're continuously updating and refining our services to reflect the changing needs of the chiropractic marketplace, which has resulted in surpassing our 2020 goals, even in these difficult times.

BPA Worldwide certifies that Chiropractic Economics has the highest number of requested readers compared to any other chiropractic magazine, so thank you for your support!

In 2021 we'll be bringing our readers a number of new topics, trends, and the practice-building articles that are requested via our annual Readership Survey. These new 2021 issue themes will include Immune Health, New Treatment Protocols, Preventative Wellness, our second Women's Health Issue, Top Tech, and a Reader's Choice issue that will be combined with the 2021 Winter Buyers Guide.

We've received a lot of feedback from DCs wishing to put this difficult year behind them. But at the same time we're gearing up for a big 2021 and new opportunities. We're wishing happy holidays and a great new year to you and yours.

To your practice's success,

SOCIAL MARKETING

4 tips for successful social media campaigns

What does it take to run successful campaigns on social media? Try these four tips.

- 1. Post!** How often do you post? Once a month? Once a week? Daily? Social media platforms must be updated regularly. When folks go to check you out and there's not a recent post, the page seems odd or irrelevant or they even wonder if you are still open.
- 2. Be responsive.** Never let a comment or message, particularly a negative one, sit for too long without some kind of response. Maybe that means empowering someone you trust to have access to the accounts, or even using an outside marketing group.
- 3. Be creative and incentivize.** Encourage activity on your social media channels. For example, when a new pair of stabilizing orthotics comes in, ask the patient if you can take a picture and post on Facebook. Let them know they'll be helping others by doing so. Identify and capture little "moments" in your office and then post to social media. Giving the world a glimpse of what goes on in your office on a daily basis will help "leads" be more comfortable in reaching out to you for help.
- 4. Let your patients do the talking.** People love to be asked to help with a cause they care about. Your patients already know and like and love you, so give them an easy way to show you off to their friends and family. Encourage patients to "tag" you in their social media posts about the great treatment they received. — *Amanda Bledsoe, DC*

Detox for Your Patients Ionic Foot Bath with the IonCleanse® from AMD

The **IonCleanse by AMD** helps the body relax and gently detox in a way it has never been able to before, even if normal pathways of elimination are compromised. An internally clean body may help other therapies and modalities work better. Detoxification and relaxation with the **IonCleanse by AMD** is a great choice as part of your protocol - whether you are addressing a specific condition or creating a general platform for health.

The **IonCleanse by AMD's** proprietary and patented technology results in only biocompatible electrical frequencies entering the water, which elicits a relaxation response. Concurrently, these frequencies create an ionic field that cleanses and purifies the body through the power of ions.

The IonCleanse process ionizes the water as H₂O is split into OH⁻ and H⁺ ions. These ions attract and neutralize oppositely charged toxins. After a session the user feels calm, relaxed, and focused.

Typical session times vary from 10-30 minutes, based primarily upon age. There are no harmful side effects, and the process is painless, non-invasive, and completely safe.

IonCleanse Premier Package

- A complete array with control unit
- 1 extra set of replacement plates
- Spare array card
- Instructional DVD & booklet
- Marketing plan
- 2 boxes of liners (60 total)
- Protective carrying case

CBD CLINIC™
Professional Care. Powerful Relief.™

Non-Prescription Topical Analgesics for Pain Specialists

CBD CLINIC™ utilizes a unique tiered pain management system so you can treat incremental levels of pain. These formulas offer penetrating relief with the cooling and heating action of active ingredients, camphor & menthol, directly at the source of discomfort. Choose between mild to maximum strength creams, ointments, sticks, or oils*.

CBD CLINIC™ Professional Clinical Strength Series

is backed by over 15 years of research, development, & testing naturally derived topical pharmaceuticals using natural ingredients.

LEVEL 02
PAIN RELIEF
Cream & Oil

This mild formula, with camphor (3%) and arnica extract, was specially created for patients who are looking for a gentle solution to their non-debilitating pain. It is a popular choice for soothing bruises, sprains, and strains; making it a great addition to your patients' medicine cabinets.

LEVEL 03
PAIN RELIEF
Cream

This fast absorbing cream is formulated with menthol (4%) and complementary cooling plant extracts to provide a gentle, soothing sensation. It is ideal for patients who are looking for moderate cooling relief without the waxy residue from an ointment.

LEVEL 04
PAIN RELIEF
Ointment

This extra strength formula targets pain with a powerful combination of camphor (5%) and menthol (7%) as well as additional plant extracts that enhance the cooling effects. This product is a must-have for anyone who experiences significant upper or lower back pain.

LEVEL 05
PAIN RELIEF
Ointment

Formulated with the highest legal limit of camphor (11%) and menthol (16%) for non-prescription topicals, this potent ointment is not surprisingly our most popular product. Recommend it as a pre and post workout solution for your active patients.

LEVEL 05
PAIN RELIEF
Stick

CBD CLINIC's most popular and powerful LEVEL 05 Ointment is now available in a clean and easy-to-use solid stick with a twist bottom applicator for a hands-free application. This convenient stick is a must-have for any gym or travel bag.

JOIN THE NETWORK

EXPANDING FROM COAST-TO-COAST

HealthSource is growing,

with plans to add clinics from coast-to-coast, including in your community. Instead of opening a new clinic, we're reaching out to chiropractors with established practices to find if there is interest to join our network.

Right now we're waiving our franchise fee as part of our GOOD HANDS PLAN. Hundreds of chiropractors have responded to the plan since it was rolled out earlier this year. But, this unique plan ends December 31, 2020, so don't wait if you would like to learn more.

TESTIMONIAL

Since beginning with Dr. Bill Owens, I have learned how to communicate more effectively with family medicine doctors, surgeons, and other medical specialists and their staff. The Fellowship in Spinal Biomechanics and Trauma is providing me with opportunities for one-on-one time with medical doctors. Not only am I gaining a better understanding of their thought processes, but they are also able to see the benefits of our collaboration. I am getting regular referrals from MD's and specialists. I am now on staff at my local hospital and able to provide integrated care for the people in my community while maintaining a private practice.

— Michael Bennett, DC, FSBT® — FL

“ It’s great to learn from other doctors, working side-by-side when you’re coming out of school.”

THE SYMPATHETIC/PARASYMPATHETIC SUPPORT SYSTEM ...

— a direct, powerful way to enrich your patients with nutrition-based Metabolic Therapy.

What could be more perfect?

Every chiropractic adjustment you deliver has visceromotor effects, somatovisceral effects, and neurovascular effects. Supporting your adjustments with specific neuro-based supplementation elevates your clinical power to a whole new level.

OBJECTIVITY is the essential difference between professional clinical nutrition and what amounts to nothing more than peddling health food store remedies. The Sympathetic/Parasympathetic Support System is the only way you can intervene in autonomic nerve imbalances --- with a simple 5 test procedure your staff can perform in no more than 3 or 4 minutes. What could be a more perfect complement to a chiropractic practice?

Complex S & Complex P are specifically formulated to increase your patients' Adaptative Capacity by empowering the Sympathetic/Parasympathetic nervous system.

Assure that your patients LIVE STRONGER LONGER ...
The SYMPATHETIC/PARASYMPATHETIC SUPPORT SYSTEM is just what you are looking for.

Building Resilience Builds a Profitable Practice

Immune Resilience is more important than ever. Encourage your patients to take a proactive role to ensure their good health all year long.

Vital C-LD®

is a high performing liposomal vitamin C with 233% more bioavailability than ascorbic acid. This essential antioxidant enhances immune function by influencing multiple biological pathways.

The key to a strong and healthy immune system is BALANCE and RESILIENCE. That means having an immune system that auto-regulates itself up and down depending on need. A healthy inflammatory response is one that does its job without staying amped up. As a chiropractor, restoring alignment helps the body's biomechanics return to normal. Natural modulation with Sovereign Laboratories products can help patients feel better, stay aligned longer, recover faster and remain resilient.

Colostrum-LD®

is packed with 200+ bioactives and growth factors to support the immune system and to help heal and prevent leaky gut. This superfood is considered the foundational nutritional supplement.

Bioidentical Polypeptides™

from colostrum supports the immune system's first response to foreign invaders. These signaling peptides jump into action when the body is under attack in mere hours rather than days.

Curcumin-LD®

has potent anti-inflammatory, anti-oxidant, and anti-microbial properties to support the health of nearly every organ and tissue. Superior absorption without gut-irritating bioperine.

JOIN THE THOUSANDS OF CHIROPRACTORS THAT TRUST AND SELL L-ARGININE COMPLETE

Thanks to you, thousands of chiropractic patients have experienced the following health improvements:

- Lower blood pressure
- Less pain and numbness from peripheral neuropathy
- Lower cholesterol
- Better circulation
- Increased cardiovascular endurance
- Better sexual health

HOW IT WORKS

Dilated Artery

Normal Artery

Constricted Artery

The miracle molecule Nitric Oxide, which is a natural vasodilator, is normally produced in the body. However, due to many varying factors, most people suffer from a deficient amount of Nitric Oxide production. Science has shown that by combining certain levels of L-Arginine and L-Citrulline, we can create a Nitric Oxide boost in the body. The amounts of L-Arginine and L-Citrulline in L-Arginine Complete provides a boost of Nitric Oxide production for more than 20 hours; this dilates and relaxes the blood vessels, improving blood circulation.

DOCTOR TESTIMONIAL

"As a natural healthcare provider for over 35 years, I've come to know that 'health assurance' is more important than 'health insurance.' L-arginine Complete has been an integral part of that health assurance plan for me and my patients. I continue to see dramatic pre and post blood improvement on all inflammation markers such as glucose, A1C, cortisol, homocysteine, and C-reactive protein. I've also now come to expect excellent improvement with patients that suffer with peripheral neuropathy, cardio vascular issues, and high blood pressure once they start taking L-arginine Complete. Many of my patients, with the blessing of their primary care physician, are no longer having to take blood pressure medication. Oh by the way, at age 68 my blood pressure is 120/78!"

ERGO-FLEX TECHNOLOGIES

855-823-8722

ergoflextechnologies.com

Ergo-Flex Technologies is the developer, manufacturer and distributor of innovative equipment for chiropractic and therapeutic health care professionals that provide extraordinary results for patients experiencing chronic pain. While our vision started in 2011 from a personal need to relieve back pain, it quickly turned into a mission to share our personal health improvements with as many people as possible. Over the years we have grown by developing innovative equipment to help patients with pain relief and offer health care practitioners the opportunity to set themselves apart, taking their practices to the next level.

The BACK ON TRAC™ is a unique system that provides a wide range of treatment options to aid in the relief of chronic back pain, including axial distraction and bilateral and lateral flexion.

The KNEE ON TRAC™ is the *only* stand-alone knee traction device in the market, offering safe and effective knee isolation through static and intermittent traction.

The TOTAL BRAIN & BODY O2™ is designed to facilitate healing by super-saturating nearly all body tissues (especially brain, kidney, liver) plasma and lymph with very high levels of oxygen that permeates the tissues because of the exercise component.

MEDICARE & COMPETITIVE BIDDING

COMPETITIVE BIDDING (CB)

is still on track to begin
January 1, 2021

A dramatic image of a ship sinking in a stormy sea. The ship's sails are made of US dollar bills, including a \$100 bill and a \$10 bill. The ship is tilted and partially submerged, with waves crashing around it. The sky is dark and overcast.

ARE YOU PREPARED?

If you have a DME / PTAN number and are in a CB zone you may no longer be able to bill for bracing unless you are classified as a Medical, Multidisciplinary or Physical Therapy clinic.

If you aren't listed as one of the above clinics and you would like to be reclassified, there are steps you can take. Give me a call and I can explain.

Competitive Bidding in a nutshell is this. Medicare solicits bid amounts for specific DME from companies who have PTAN numbers. Normally the bids come from DME companies. PTAN means Provider Transaction Access Number. Forever ago (30 years) when I started in healthcare it was simply called a DME Provider Number.

Unless you are exempt from CB, you will need to be Accredited and secure a Surety Bond.

Another benefit to being classified as one of the exempt clinics I mentioned in the beginning is that your client would not only be exempt from CB, but also be exempt from Accreditation.

Even if you aren't exempt from CB but have a PTAN number (or want one) you can still dispense & bill for LSO back braces but they will need to be custom fit to the patient by a Certified Fitter or "Individual with Expertise". There are also inexpensive fast-tracked programs that will allow you to become credentialed as a Certified Fitter. Keep in mind there are more rules to custom fitting.

There is a lot more to go over but it would make this a never-ending article. And my typing skills just aren't that good. Call me at 865.368.0202 with any questions you may have.

Our goal, to make sure that with CB and dispensing DME you remain in safe harbors and are successful with your DME program.

Competitive Bidding doesn't mean profits are going down like a sinking ship.

Life Changing Innovation

Specific Braces for Specific Patients

Aspen Medical Products is dedicated to developing clinically based solutions to equip healthcare providers with products that meet the unique needs of their patients.

Pain Therapy Line

The Pain Therapy line is low profile, easily customizable and designed to enhance trunk stiffness and reduce the load on overworked muscles. Patients dealing with chronic low back pain are typically less active. Using the lower back muscles is painful; therefore, the tendency is to avoid using them. This lack of activity leads to muscle weakening.¹

The increased trunk stability and targeted compression delivered by the Aspen Pain Therapy line of braces can help this downward spiral of pain inactivity and muscle weakening and help get patients back to pre-injury levels of activity. As recommended by the Department of Health and Human Services Pain Management Best Practices Inter-Agency Task Force², bracing should be part of the clinician's toolbox for treating chronic low back pain.

"Dr. William H. Koch, Chiropractor personifies everything that I believe to be true about human healing. By addressing the "root cause" of complaint, he gently persuades the muscles, joints and fascia using his unique instruments to specifically bring about balance. **Being someone who fears the painful cracking and forcing of spinal realignment, I prefer and truly appreciate how Dr. Koch's gentle and effective approach has helped me and my family.** I readily refer my patients to him without reservation as his teaching and his practice emphasizes the importance of providing personalized, holistic healthcare that treats the cause, not just the symptoms."

-Joanne M. Keller, APRN - Family Nurse Practitioner

"It is not unusual for my new patients, at the end of their first visit, to say, 'Wow. I need to send my mom in here' (or sister, brother, child). And a day or two later I get calls from family members and friends asking for an appointment. If you can produce great results, quickly and comfortably, exceeding patient's expectations, your gain is far more than what you are getting paid on any given visit."

CurcuVES

CurcuVES contains Turmeric, which has a long history as a key ingredient in traditional Indian foods and is valued for its nutritive and health-promoting qualities. However, many of the beneficial components of Turmeric (including curcuminoids) are poorly absorbed by the body. The unique delivery system in VESIsorb® Curcumin greatly minimizes this effect, allowing curcuminoids to be solubilized, forming a self-assembling, nano-colloid in the presence of aqueous systems such as the intestine. VESIsorb® provides an excellent opportunity for improved bodily absorption.
